

RIVER CROSSING™

The Perilous Plank Puzzle

Can the Hiker cross the river without getting up close and personal with gators, snakes and piranha? Move the planks among the tree stumps to help our hero across! This innovative new brainteaser is as challenging as they come, and the jungle adventure theme makes it compelling to play. The drawstring bag makes it great for travel. Forty Beginner-to-Expert challenge cards show where to place stumps and planks to start each game, and a magnet in our hiker's feet makes moving the planks a snap. Getting all the way across...that won't be so easy! Ages 8 to adult.
