Laser Chess™

The Beam Directing Strategy Game

Laser Chess is a two-player strategy game that combines the spatial thinking skills of chess with the high-tech fun of laser beams. Players alternate turns moving their mirrored pieces around the board, and at the end of each turn, players fire a real laser. The beam bounces from mirror to mirror, and if the beam strikes a non-mirrored surface of any piece, it is immediately removed from play. If you illuminate your opponent's king – **YOU WIN!**

Shadows in the Forest™

Play-in-the-Dark Strategy Game

Shadows in the Forest is the strategy board game that you play in the dark! One player moves the LED lantern around the board in search of shadowlings, mysterious creatures who avoid the light. The lantern illuminates the forest and trees, casting real shadows on the board that become part of the game. The rest of the players work together, strategically moving their shadowlings around the board to stay out of the light. If all the shadowlings can unite behind one tree, they win! Shadows in the Forest offers a unique semi-cooperative play experience the whole family will enjoy.

Hacker™

Cybersecurity Logic Game

The logic game that proves coding can be cool! In Hacker, you are training to become a member of Oblivion, an elite white hat hacker team. You will learn to think like a hacker as you play through 40 three-part coding simulations. Your agents will race against time to collect data chips, avoid viruses, trigger alarms, and safely exit the program -- all on an innovative game grid that features 5 rotating platforms. Hacker incorporates complex programming concepts into a fun, captivating theme that can be played as a single player or collaborative game.

Cat Crimes™

Who's to Blame Logic Game

A feline crime has been committed, and it's your job to identify the culprit! Cat Crimes is a single-player deductive reasoning game with a lovable cast of characters – who may be up to no good! Each of the 40 challenge cards presents a crime and a series of clues to help solve it. There are 6 cat suspects to choose from, each with their own characteristics and identifying traits, and a game board that features supporting evidence. Grab your magnifying glass and sharpen your wits, it will take all your detective skills to solve these diabolical Cat Crimes!

Color-Fold™

Folding Logic Puzzle

The concept is simple: Draw one of the 40 challenge cards and fold your colorful cloth until only the images shown on the card can be seen. But the simplicity ends there. The cloth can be folded along any line – vertically, horizontally, and even diagonally – creating a diabolical challenge for even the most skilled puzzlers. Color Fold is a bright, unique way to strengthen your visual perception and sequential reasoning skills.

Fold-It™

Innovative Folding Game

The race is on to determine the best chef in town in this clever fabric-folding game. Your goal is to prepare dishes the fastest, based on customer order cards. When an order card is revealed, players race to fold their individual recipe cloth so that it shows only the dishes displayed on the card. The last player to correctly fold their recipe cloth loses one of their star tokens, and if you lose all three of your stars, you're out of the game! Fold-It offers a unique, innovative play experience that is simple to learn, but difficult to master. Plus, with two levels of difficulty, even the most seasoned chef will be put to the test!

New 2018 Products!

Kaleidoscope Puzzle™

Color Mixing Logic Game

Prepare to be dazzled! Experience the wonder of creating vivid color patterns with Kaleidoscope Puzzle. Start by selecting one of the 40 challenge cards, each featuring a unique color pattern. Then, twist and stack your color tiles to match the pattern shown on the card. It's tricky, because the transparent tiles feature primary colors only, and you will need to stack them in different combinations and positions to create the secondary colors. When you think you've discovered the correct pattern, hold your tiles up to the light to see if you've won! Kaleidoscope Puzzle is a fresh, colorful way to strengthen your visual perception and reasoning skills.
