

# INSTRUCTIONS:

## YOUR GOAL:

Match all 8 game pieces to their proper location on the Game Grid, then drive the red Hero Car through the maze and down the EXIT ramp.

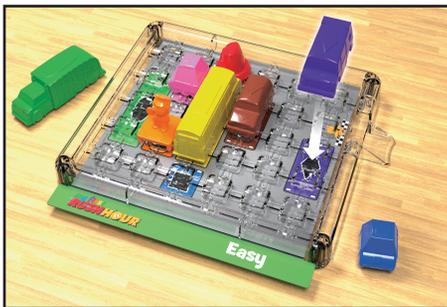

## STEPS TO PLAY:

1. Select a Challenge Card and insert it into the Card Slot.

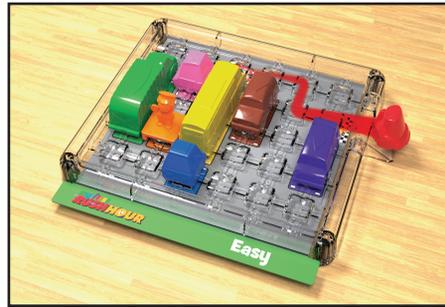

Challenges are color-coded Easy, Medium, and Hard. They increase in difficulty from 1–30.

2. Examine the color and shape clues on the Challenge Card to determine where to place each of the 8 game pieces on the Game Grid.
3. Place the pieces on the Game Grid to create a maze for the red Hero Car to navigate.

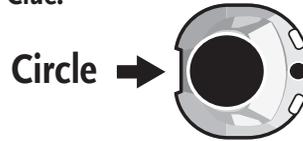

4. Say, “Buckle Up!” and drive the red Hero Car through the maze to the EXIT ramp and—YOU WIN!

## RULES:

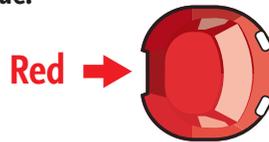

- Pieces must be placed on the Game Grid so that they match the shape and/or the color clue(s) shown on the Challenge Card beneath the Game Grid.

## Shape Clue:

Shape clues indicate the shape on the game piece that belongs in that place on the Game Grid.

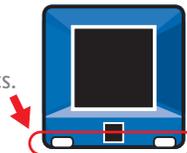

## Color Clue:

Color clues indicate the color of the game piece that belongs in that place on the Game Grid.

- Take care to make sure that the Vehicles are facing the correct direction on the Game Grid.

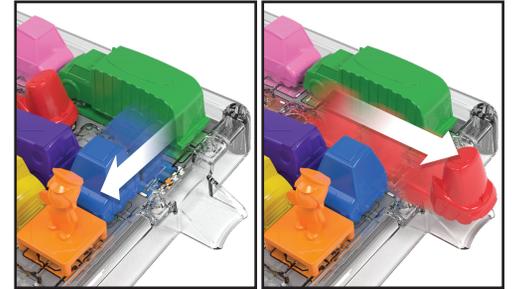

HINT: Look at the Vehicle's headlights.

- You must drive the red Hero Car through the maze by sliding it along the road and turning it to avoid running into other game pieces.
- You may not pick up the other cars!

## HARD CHALLENGES (21–30):

In the Hard challenges you will need to slide 1 OR 2 pieces out of the way in order to find your way to the EXIT ramp.

Some of the pieces can move to slide out of your way and others cannot. (See “KEY”).

## ABOUT THE INVENTOR:

My First Rush Hour® was imagined at Peggy Brown Creative, a studio where hundreds of games, toys, and puzzles are developed by artists, illustrators, and designers. Their motto is, “If it’s not fun, it’s none of our business!”

## INCLUDES:

- 1 Parking Lot Game Grid
- 1 Red Hero Car
- 6 Vehicles
- 1 Safety Officer
- 15 Double-Sided Challenge Cards

# KEY:

## HERO CAR

Circle

### Movement:

The red Hero Car can slide forward and backward. It is also the **ONLY** Car that can turn. To turn the red Hero Car, move it on to any square and turn it in the direction you want to go.

## SAFETY OFFICER

Octagon

### Movement:

The orange Safety Officer can slide forward, backward, and side to side.

## SUV

Triangle

### Movement:

The brown SUV cannot move. Once placed on the board in the spot that matches the Challenge Card, it should stay there until the next challenge.

## COMPACT CAR

Square

### Movement:

The blue Compact Car can slide forward or backward only, and it cannot turn or move side to side.

## TINY CAR

Star

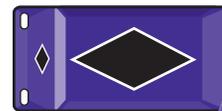

### Movement:

The pink Tiny Car can slide forward or backward only, and it cannot turn or move side to side.

## VAN

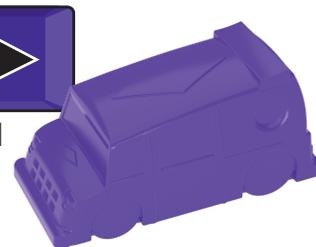

Diamond

### Movement:

The purple Van cannot move. Once placed on the board in the spot that matches the Challenge Card, it should stay there until the next challenge.

## GARBAGE TRUCK

Oval

### Movement:

The green Garbage Truck cannot move. Once placed on the board in the spot that matches the Challenge Card, it should stay there until the next challenge.

## SCHOOL BUS

Rectangle

### Movement:

The yellow School Bus cannot move. Once placed on the board in the spot that matches the Challenge Card, it should stay there until the next challenge.
