THE CURSED DOLLHOUSE

Escape the Room: The Cursed Dollhouse

The Cursed Dollhouse

Ever since his daughter went missing, old Mr. Garrity has become a recluse. You only see him walking to and from his shed. He stays out there more and more, and lately you've noticed strange lights coming from the shed at odd hours.

Recently, other local children have gone missing. Mr. Garrity must have something to do with it, and one night you decide to break in to his shed. On a bench in the middle of the shed is a dollhouse glowing eerily. It calls to you, and ignoring your instincts, you move toward it...

In Escape the Room: The Cursed Dollhouse, players explore a mysterious three-dimensional dollhouse, solving puzzles in search of a way to escape. Five rooms, each containing objects to investigate and multiple puzzles to solve, will keep even the most skilled escape room players engaged through two hours of play.
