

WORLD-CHANGING LOGIC GAME

The ability to create new worlds is at your fingertips with GeoLogic™! These planet formations are only partially finished, and it's up to you to place the remaining Tiles in the right places! A planetary puzzling experience, GeoLogic features five unique Biomes (Desert, Forest, Mountain, Ocean, and Tundra), allowing for endless placement opportunities. Follow our 60 Challenges or create your own planets!

INCLUDES:

60 Challenges & Solutions

Biome Pieces:

3 Desert

3 Forest

3 Mountains

3 Tundra

2 Ocean

Globe

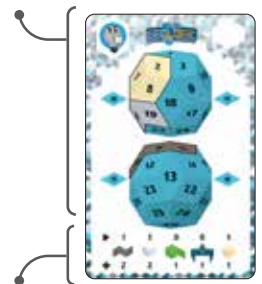

YOUR GOAL:

Fully cover the Globe with Biome Pieces to complete your planet!

SETUP:

Select a Challenge Card and arrange the Biome Pieces as shown.

The two globes pictured show the challenge setup from two angles—the front and the back. The light blue indicates the areas of the Globe that are not covered at the beginning of the challenge. The "floating" diamonds pictured to the side of each globe show the side panels of the Globe from this angle.

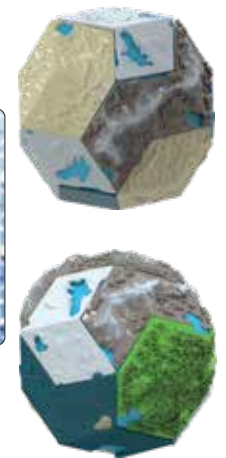

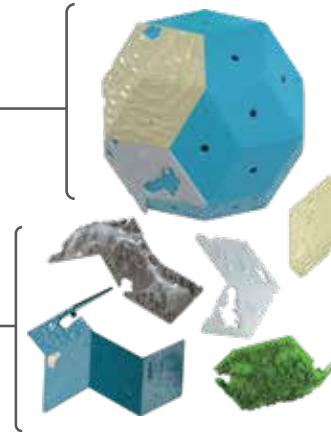

► This symbol indicates what Pieces should be placed at the START of the challenge to complete the setup above.
 + This symbol indicates what Pieces you must ADD to complete the planet's surface and solve the challenge.

HOW TO PLAY:

Using the Pieces shown in the "Add" section of the Challenge Card, clip the Biome Pieces onto the Globe where you think they go.

Arrange the Pieces to fully cover the exposed faces of the Globe. When all faces of the Globe are covered and the planet is complete—YOU WIN!

ABOUT THE INVENTORS:

Both from the lovely state of Michigan, Ken and Jeremy have a shared passion for toy and game design as well as talking about how awesome their wives and kids are. While not inventing, Ken enjoys speed eating yogurt, and Jeremy enjoys Rickrolling Ken. During a discussion about weird shaped dice, Jeremy brought up a 30 sided die, which was the spark of inspiration for GeoLogic.
